## Beliefs of the Clackamas County Republican Party

We BELIEVE the strength of our nation lies with the individual and that each person's dignity, freedom, ability and responsibility must be honored.

We BELIEVE in equal rights, equal justice and equal opportunity for all, regardless of race, creed, sex, age or disability.

We BELIEVE free enterprise and encouraging individual initiative have brought this nation opportunity, economic growth and prosperity.

We BELIEVE government must practice fiscal responsibility and allow individuals to keep more of the money they earn.

We BELIEVE the proper role of government is to provide for the people only those critical functions that cannot be performed by individuals or private organizations and that the best government is that which governs least.

We BELIEVE the most effective, responsible and responsive government is government closest to the people.

FINALLY, We believe the Republican Party is the best vehicle for translating these ideals into positive and successful principles of government.

## June Update

*After a hard fought primary in our County, we have nominees for every office in the County. We have terrific nominees. We would not of gotten here without everyone stepping up to run to give our members a choice. We give thanks to all the candidates that ran. We will continue to need your skills and talents to help our nominees win the general election in November. We call upon all candidates that ran to help encourage your supporters to join the team and get our nominees elected. Without us working as one team, we cannot be successful. The party will share more information with our PCPs in upcoming meetings so they can be ready to hit the ground running for the nominees. This is a grassroots organization and we want to share the voice of all residents so their voices are heard in the political process.*
