## Relating to Department of Justice Search of Former President Trumps Residence in Florida

Whereas...

...our former President Trump was subjected to a politically motivated federal raid of his family home violating his family's privacy and sense of security. Our former First Lady's wardrobe was groped and mishandled.

Whereas...

...video of the agents advancing on Mar-A-Lago, our former President Trump's abode, was distributed and smeared across social media and news platforms.

Whereas...

There is substantial indications of unfair practices employed in the last presidential election to prevent our republican president his second term of office and there has not been remediation.

Be it resolved...

Our country needs a fair chance for republican leadership. We are outraged and inflamed that these unconscionable acts have taken place. Our confidence is shaken in the election system and in federal law enforcement that they may be weaponized against those republicans constitutionally elected. We fear for the future of our country if good republican candidates cannot overcome these obstacles and seek office.
