

The New Clackamas County Republican Party

Statement from the Clackamas County Republican Party Condemning the Political Persecution of President Donald J. Trump and the America First Populist Movement

We, the Clackamas County Republican Party, with a voice that echoes across our great state, call on the Oregon Republican Party to soundly reject and condemn the unlawful persecution of President Donald J. Trump. In order to silence him and the American populist movement, President Trump has been targeted in every way imaginable, from two failed impeachment attempts to now, over forty indictments leading to a possible 700 years in prison. The latter for alleged crimes of protesting an election, something the Democrats have done time after time after time with no repercussions. These indictments undermine not only Donald J. Trump's "First Amendment protected" political speech, but every conservative American's protected speech as well.

This unlawful persecution of President Trump is occurring for at least four reasons: (1) the Biden regime is trying to distract the public from its own criminal corruption and treason; (2) the Biden regime is trying to render President Trump ineligible to run by smearing him; (3) the Biden regime is trying to destroy the fabric of America by persuading the public that law and order is simply political; and (4) the Biden regime is trying to poke the bear, to provoke a response that it will use to further remove our freedoms.

We, the Clackamas County Republican Party, call on the Oregon Republican Party to condemn the unwarranted and unlawful actions of Alvin Bragg, Fani Willis and Jack Smith, who seek to destroy the notion of fair and impartial justice in America.

We, the Clackamas County Republican Party, call on the Oregon Republican Party to condemn the unwarranted and unlawful actions of Attorney General Merrick Garland, for leading the Department of Justice in the weaponization of the FBI to carry out acts of intimidation, such as home raids against multiple "conservative" persons it considers "Enemies of the State", within which includes Donald J. Trump.

We, the Clackamas County Republican Party, call on the Oregon Republican Party to issue a public statement that condemns the obvious "political persecution" of Donald J. Trump as well as the political persecution of numerous American Patriots, including those imprisoned as a result of the "January 6 Event" at the Capitol.

We, the Clackamas County Republican Party, see through the motives of the current Biden administration and the Department of Justice in engaging in war against their political opponents. We the people, urge the Oregon Republican Party to take the strongest stance possible in condemning these Marxist tactics of intimidation, and repel any efforts whatsoever to silence the America First movement in America.

And we, the Clackamas County Republican Party, call on the Oregon Republican Party to invite President Donald J. Trump, whom we wholeheartedly support, to campaign in Oregon for his re-election as President of the United States of America in 2024.

Submitted 08/23/23 by the Clackamas County Republican Party of Oregon, Rick Riley – Chair.
